

May

Mental Health Awareness Month

This presentation explores what good mental health looks like. It aims to destigmatize mental health and well-being while offering strategies that the general public can use to improve their well-being, as well as resources for increasing access to care. We cover common mental health diagnoses and describe the symptoms to look for. Additionally, we teach tools that promote good mental health and overall well-being.

DATE: 05.15.2025
